Have you already entered into an agreement with another party regarding either or both of the Renewable Energy Certificates ("RECs") for electricity generated by the small renewable generation facility or GreenPower rights arising in respect of your Feed-in Electricity?

(Tick appropriate box) Yes No

Agreement

By submitting this application you accept and acknowledge the following matters:

- It may be necessary for your distributor (the company responsible for the electricity poles, wires and meters in your area) to install a new electricity meter, or make changes to your existing electricity meter in order for you to receive the Feed-in Tariff. Costs will be associated with these changes. Lumo Energy has no control over these costs. We will pass this cost on to you through your energy invoice. We can confirm the amount you will need to pay upon your request.
- That you have been provided with appropriate Victorian Feed-in Tariff Terms and Conditions and you provide your Explicit Informed Consent to these Terms and Conditions.
- You are aware that as a result of switching to a Feed-in Tariff you may be moved to a new network tariff or might permanently lose entitlement to particular tariffs such as controlled load, dedicated circuit (e.g. hot water and slab heating) and climate saver tariffs. If you are unsure whether your tariff will be affected you can call Lumo Energy on 1300 11 5866.
- If under the terms on which we sell you electricity we invoice you based on estimated meter reads you are aware that from when you accept our offer to purchase your Feed-in Electricity we will change your invoicing so that it will be based on actual meter reads. By accepting this offer you agree to this change.
- Lumo Energy is committed to ensuring your privacy is protected and will only disclose your personal details to other parties for the purpose of facilitating your Feed-in credit. Lumo Energy's privacy policy is available on our website lumoenergy.com.au.

Checklist

Ensure that you, or your electrician/solar panel installer, submit all of the following documents if you're applying for a Feed-in Tariff for the first time.

- This application form
- Electrical Work Request (EWR) with all details completed
- A copy of your Certificate of Electrical Safety (CES or COES)
- A Solar Agreement/Photovoltaic (Solar) Generator Connection Form which covers your right to export electricity into your local distributor's network (This can be returned directly to your distributor but please let Lumo know that you have done this as we cannot request your meter installation until your distributor has this agreement).

Authorised Signature/s

A person who signs on behalf of another warrants they have the authority to bind that other person.
